## ALBERTA HOTEL IS BEING MADE LARGER

The Hotel Business in Blairmore  
Increases with the Population  
and Every Effort Being Made  
to Cope with the Situation.

The future in store for Blairmore has led Messrs. Sick & Simpson, the proprietors of the Alberta hotel, to take steps towards the enlargement of their hotel and to prepare themselves for the business which must necessarily come their way. With this end in view, they have decided to renovate the present structure and to make a large addition thereto. Part of the old building is being hauled back about seventy feet and a new addition, 70 feet long, 25 feet wide and with two stories, will be erected on the corner of Fifth avenue and Victoria street. The ground floor of this new addition will be used as a bar room and barber shop while the upstairs will be made into bedrooms furnished with private baths and fitted up in the very latest style.

An addition will also be made to the western portion of the present building. The office will be enlarged and the dining room will be changed to the north-west corner. Twenty-two bedrooms in all will be added and when completed the Alberta will have a first-class appearance and will be classed as one of the best hotels in this district.

Thomas Cyr has the contract for moving the old part, and tenders for the erection of the new addition are now being sought. It is the intention of the owners to have all improvements completed by July.

The owners in building the new addition, are so arranging the construction as to permit them to carry out their intentions of putting up a \$400,000 brick structure in the course of the next two years when the business of this town is sure to demand such a public house.

## The New Sidewalk At- tracts Night Travellers

The West Canadian Collieries have just about completed laying the sidewalk along the main street on their property, at the west end of Blairmore, to the corner of Fourth avenue and Victoria street, a distance of over a quarter of a mile, and many cheerful couples have already taken walks in that direction during the night besides the innumerable crowds whose duties call them in that direction during the day. This sidewalk is quite an improvement to that part of the town, and it is gratifying to note the efforts displayed by the West Canadian Collieries in beautifying this place and in doing their share towards making Blairmore the most up-to-date town in the whole of Southern Alberta. The town council have agreed to put in the crossing, and this will be proceeded with immediately. We would like to suggest that the town council of Coleman be now asked to lay a sidewalk to connect with the one at the extreme west end of Blairmore.

## 1,000 BARRELS OF CEMENT PER DAY

The Rocky Mountain Cement Co.  
Making Great Effort to Meet  
the Growing Demand for Their  
Product.

The Rocky Mountain Cement Company have almost completed the installation of considerable machinery which arrived some time ago so as to place them in a better position to supply the growing demand for their product which is considered by the builders with whom we have come in contact, as being second to none manufactured on this continent. The fire of last Saturday morning has somewhat interfered with the work of installing the new machinery but a representative of this journal was informed by the general manager, Mr. C. J. Pegg, that the new machinery would be installed and the plant in operation again early in May.

The additional machinery which is being installed at the already large and well-equipped cement plant consists of a new rotary kiln, 100 feet in length and eight feet in diameter; a complete set of elevators, conveyors and all accessories connected with the kiln; a complete and new battery and pulverizer for the finished grinding department, and several smaller pieces of new and heavy machinery.

When the Rocky Mountain Cement Company put their Blairmore plant in operation again the capacity will have increased from 400 to 1,000 barrels of cement per day; and then this town will have one of the largest and best equipped cement mills to be found in this part of the country.

## Easy Money for the Exchequer

The sinners' bench at the court room was occupied on Monday afternoon last by eight females from the tendorium district. Justice Lyon presided. The proceedings were very quiet except at times when the jingling of silver dollars or the ruffling of ten dollar bills disturbed the silence which had become monotonous. Ida Evans, Rita Norwood, Alley Huski, Lena Paul, Clois Langston and L. Ayeroff were up on a charge of being inmates of a house of ill-fame. They pleaded guilty and each one was fined \$10 and \$3 costs. Lottie Wilson and Hannah Yawashita were charged with having sold intoxicating liquors without a license. They declared themselves guilty and each paid \$100 and \$3 costs. The court did not last more than half an hour and during that time the sum of \$284 was taken in, \$100 of which goes to the provincial government and the remainder goes to the town of Blairmore. The girls were well stocked with money, and when Lottie was called upon to settle the claim the court had against her she produced a roll of bills that would stagger a Forty-niner.

Nothing succeeds like success and the appearance of prosperity begets it.

## People Leave "Land of Nod" to Fight Fire

Early on Saturday morning last the wild screeches of a steam whistle aroused many from their peaceful slumbers and many pleasant dreams were abruptly broken. The whistle was a call from the Rocky Mountain Cement Company for help to fight a fire which threatened to destroy that entire plant, and right royally was the call responded to.

At 4 o'clock, just as most of the people had gotten home from the Telegraphers' ball, fire was discovered in the coal mill of one of Blairmore's chief industries and it looked at one time as if the entire works would be gutted. The Blairmore fire brigade and a large number of willing citizens hastened to the immediate scene of the conflagration. The Cement Company soon got their hose at work and checked the flames. The fire brigade from Frank together with a small army of the citizens from our neighboring town responded to the call for help and did praiseworthy work in fighting the fire and in confining it to one building. The Coleman firemen also came but were too late to render any assistance.

The fire was caused by spontaneous combustion in the coal mill. On Wednesday the insurance

#### Children and Good Roads

It is pleasing to learn from the officers of the Canadian Highway Association that the children through out Canada are taking a keen interest in the essay competition on "What Good Roads Mean to Canada" and that from all parts of the Dominion papers are being forwarded to the headquarters of the association at New Westminster, B. C.

As an encouragement to the children to busy themselves in the preparation of these essays the president of the Canadian Highway Association, Mr. W. J. Kerr, is offering valuable gold, silver and silver gilt medals, and also a souvenir silver pin to all competitors whose paper attains a certain standard of merit.

What it should not be necessary for this incentive to interest the young people of Canada in Good Roads, and their relation to the well-being of the country, the fact remains that in this, as in other things, some inducement is often necessary in order to awaken the younger generation to the economic needs of this country.

Good Roads, as everyone will admit, are badly needed in Canada at the present time, but it is only when the people at large are ready to demand this—not merely to request it, that we can expect the authorities, whether local, municipal, provincial or federal to act on this matter or anything like a large scale. The aim and purpose of the Canadian Highway Association, as is well known, is to establish a Transcontinental road that will reach from Halifax, N. S., to Alberni, B. C. and while it is not the intention of this organization to do more than educate the public and act in an unofficial advisory capacity, it is yet doing much good work in this cause and will be largely instrumental in getting this Highway, four thousand miles long, completed within five years.

We in this district must do our share of this work, and it behooves the Good Roads advocates of The Pass to bestir themselves and lend all the assistance they can to the officers of the Canadian Highway Association in the good work they are doing for Canada.

#### Boxing Match a Draw

The boxing exhibition given in the Blairmore opera house on Saturday night last attracted a full house. The three round preliminary between "Young" Ronald and "Hurricane" Gallagher resulted in a draw. The main bout was put on at 10.30, both Marshall and Morris appearing in excellent trim. Fred Raynor was chosen as referee and performed his duties satisfactory to all. Messrs. Wright and Levitt acted as judges and J. Burke as timekeeper. The first, second, third, fourth and fifth rounds were very evenly fought. Marshall did some excellent work in the sixth round, which round was given in his favor. In the seventh several effective punches were recorded in Marshall's favor, while Morris dealt several swift punches at his opponent's ribs. This round was declared equal. The eighth and ninth rounds were not creative of much excitement, but both started out in earnest in the tenth and displayed great capabilities and good defensive powers, and all through this round began to raise doubt as to who would be the champion of the bout. Marshall got in several heavy blows at Morris' face and chest, as well as a good stiffener to the back of the neck. In a clinch which followed, Morris well retaliated over Marshall's kidneys. This round was given in Marshall's favor. The next 3 rounds were evenly contested and the judges decided to award equal honors in all three. In the fourteenth both started out with a determination to have the honor of wearing the middleweight championship belt, and all through this round was well fought. Marshall dealt many well-directed blows at Morris' neck and ribs with apparent weakening effect, but towards the finish Morris seemed to survive and mount up in a masterly manner over his opponent. A whole shower of effective punches found way through the defence, but the round terminated in Marshall's favor. The last round was fast fought and honors were about even. From start to finish neither of the combatants was put to the floor, and the match right through was the cleanest and most interesting ever witnessed here. Morris was in the very best of trim; but Marshall was suffering from a broken ear, which injury had been inflicted during previous training. This somewhat handicapped Marshall and prevented him from displaying all the new science punched into him by his trainer, James Burrows. At the conclusion the large audience cheered the combatants, while the judges were preparing to give their decision. The bout was declared a draw, while Morris was declared winner on points. It is expected that several similar bouts will be arranged for the near future. Interest in boxing is expanding, and amongst the audience were noticed the faces of several housewives—evidently taking pointers to assist them in exercising their generalship over the poor "hubby" at home.

## A RARE OPPORTUNITY FOR LIVE INVESTORS

## Lake City

Is the name of the Western Terminal Point of the proposed Crow's Nest Pass Electric Railway and is already tapped by the Pass line of the C. P. R., while the G. N. R. has already approached to within a few score of miles and must eventually pass through this admirably located town.

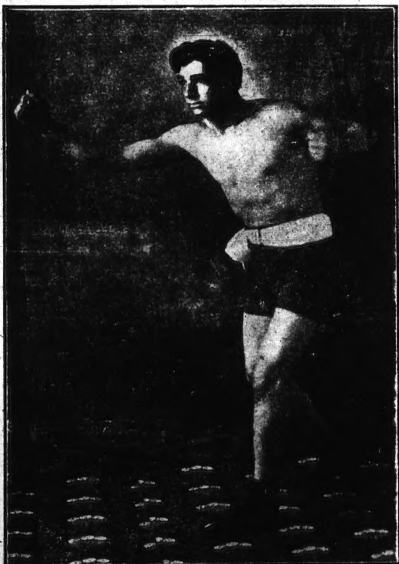

### Lake City

Is located by the shore of Crow's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the international line. In reality, it is at the top of Canada where the majestic Rockies tower in serene magnificence over great chasms and numerous fiords, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tasks for the daring mountain climber and for huntman who desires to outlive the quiet ways of the Rocky Mountain goat, sheep, deer or elk, which are the monarchy thereon. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages. These resources include gold quartz, coal, iron and pulp wood.

Crow's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now this promise is being realized. Plans for hotels, etc. are being arranged, as well as boat houses, and the most modern pleasure yachts will soon glide over the surface of this beautiful lake.

But a few weeks ago lots were placed on the market, and the agents have had their hands full attending to purchasers. Prices run from \$150 up. For further particulars apply to the agents:

## A MOTHER'S DUTY TO HER DAUGHTER

Her Health Must Be Carefully Guarded As She Comes to Womanhood.

Every mother who calls to mind her own girlhood knows how urgently her daughter is likely to need help, and strength during the years between her school days and womanhood. Then it is that growing girls droop, become fragile, bloodless and nervous. Nature is calling for more nourishment than the blood can supply, and signs of distress are plainly evident in dull eyes, pallid cheeks, weak and aching backs, a languid step, signs of depression, nervousness and a dislike for proper food. These signs mean anæmia—that is bloodlessness. The watchful mother takes prompt steps to give her girl the new, rich blood her weak system is thirsting for by giving her Dr. Williams' Pink Pills, because so many thousands of feeble, anæmic, unhappy girls have been transformed into robust women through the rich, red blood these pills actually make. No other medicine has ever succeeded like them, and thousands of mothers have proven their worth. The case of Miss Margarette Bolduc, of Montreal, Quebec, proves the truth of these statements. Miss Bolduc is sixteen years of age, and says that when she was thirteen or fourteen she had been afflicted with extreme weakness, and seemed to be going into a decline. The least effort left her weak and breathless, so that she was unable to do any household work. She had no appetite, suffered from terrible headaches, dizziness and sometimes fainting spells. She was under medical treatment, but absolutely no improvement. In fact seemed to be steadily growing weaker. When her case seemed most hopeless a lady friend advised the use of Dr. Williams' Pink Pills. After taking a few boxes she began to gain new strength, and after the continued use of the pills for about two months she was again as well and strong as ever she had been, and has since enjoyed the best of health.

Sold by all dealers in medicine or by mail at 30 cents a box or six boxes for \$2.00 from Dr. Williams' Medicine Co., Brockville, Ont.

**Sweet Little Harry**  
"Ma," said little Harry, "I'll tell you."

"What, dear?" his mother asked. "You ought to go and live in some country where there are Mohammedans."

"What on earth ever put such a thought as that into your head, darling?"

"Cause over there they think all fat women are beautiful."

"Harry! If you dare to open your mouth again this evening you will be sent to bed with nothing to eat."

**Minard's Liniment Cures Worms, etc.**

While the great Roumanian scheme for a pipeline from the oil fields of the sea hangs fire, several new pipelines are being constructed in the country, notably by English interests. It is the intention to lay two lines, each of four inches diameter, of heavy crude and the other for light between Moreni and Ploesti.

Some interesting experiments showing that the yield of plants may be increased by electricity are described in a recent official report published in Berlin. Success was also achieved in hastening the ripening of strawberries by several days, thus enabling the growers to command the highest price at the beginning of the season.

A simple and good rule to remember and to follow is to buy nothing in the baking powder line unless all the ingredients are plainly printed in English on the label. This information is stated on every package of Magic Baking Powder. All Grocers sell it.

**Remarkable Discovery**

An engineer of Fula, it is stated, has discovered a means by which submarine mines may be exploded by Hertzsian waves. He has, it appears, invented a powder as explosive as it is sensitive. It is said that the explosion is brought about by the influence of the electricity upon the powder.

"My husband has given me a checking account."

"Isn't that lovely? Now you can buy anything you want, and just write out a cheque for it."

"Yes, I'm rather sorry on one account, though. It seems such a lot of trouble to have to write out a cheque for one's car fare, especially when the cars are crowded or when you have to pay as you enter."—Chicago Tribune.

Women use seventeen times as many gloves as men. Every year Australia exports one hundred tons of gloves.

## FOR THE WOMAN WHO THINKS AND FEELS.

Some women complain that they periodically suffer from dull and heavy feelings, or dizziness in the head, nervousness, and general lassitude, and should not pass to the normal healthy woman. But most every woman is subject to these pains at some time in her life, due to abnormal conditions in her system, or to a lack of proper nourishment. Dr. Williams' Pink Pills for Pale People, a regulator and female tonic made from native medicinal roots with pure glycerin, and without the use of alcohol, called

**DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE'S PRESCRIPTION,**

has proven its value in thousands of cases, like the following:

"**Ms. DORA M. MANN, of Auburn, Me.,** writes: 'I have used your Pink Pills for Pale People for many years, and have found them to be the best medicine I have ever used. I have been afflicted with many of the ailments mentioned in your booklet, and have found your medicine to be the only one that has cured me. I feel that I am now a healthy woman, and I am able to do all the work I wish to do. I feel that I am now a healthy woman, and I am able to do all the work I wish to do. I feel that I am now a healthy woman, and I am able to do all the work I wish to do.'

"**DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE'S PRESCRIPTION,** has proven its value in thousands of cases, like the following: 'I have used your Pink Pills for Pale People for many years, and have found them to be the best medicine I have ever used. I have been afflicted with many of the ailments mentioned in your booklet, and have found your medicine to be the only one that has cured me. I feel that I am now a healthy woman, and I am able to do all the work I wish to do. I feel that I am now a healthy woman, and I am able to do all the work I wish to do. I feel that I am now a healthy woman, and I am able to do all the work I wish to do.'

## To The Queen's Taste

The King has brought much Indian treasure back with him—that is to say, the medals carried on the homeward journey many things which his Majesty, as a collector, regards as rather treasurable. For each thing that is brought home, it may be said, roughly, something has been left behind. The ship's bookshelves, even, have been overhauled. Many volumes went out on its trial, and did not survive the close scrutiny under which it passed during the days of dreadfals. Certain books on Indian history served their purpose before the "Dumbar" and the encounter with the descendants of innumerable royal Indian houses, and will not be called upon in these particular editions, again. Of the fiction, since his Majesty is a close follower of such literature, no great clearance need have been made, for the books were not chosen at haphazard. "A good book for a journey," Mr. does not pass for sufficient recommendation in his Majesty's case. Of the rather unspectacular volumes, we may mention Wordsworth's poems, George Borrow's "Lazarus," and Sir William Butler's "Elements," as indicative of the breadth of the King's taste in serious literature.—Satch.

**Minard's Liniment Co., Limited.**  
Gentlemen—My daughter, 13 years old, was thrown from a sleigh and injured her elbow so badly it remained stiff and very painful for three years. Four bottles of MINARD'S LINIMENT completely cured her and she has not been troubled for two years.

Yours truly,  
J. B. LIVESQUE,  
St. Joseph, P. O., 18th Aug. 1906.

**The West**

I will sing a song of the Victorian wild, Where the plains are like a floor, Where heaven by smoke are tumbled.

And the tempests rage and roar, Where the sky is like a great blue bay.

Above a stretch of white, And wide the tumbleweeds run and roll.

Unhindered in their flight.

I sing you a song of the level land, Where the wilds are fresh and free; Where never a hut in the silence

And never a leafless tree: Where the wolf and the coyote roam the snow.

And sound through the silent night To hunt for the wounded buffalo.

That has vanished away from sight.

I sing you a song of the bonanza West.

Of its great blue roof, the sky, And the tide of pride that fills the breast.

Which swells great the cry Of the trackless wastes of snow that gleam.

In the smile of the Western sun; Where the grasses lash the frozen stream.

And the snowdrifts seal and snare.—Jack Remington, in the St. Paul Pioneer Press.

**Only One "BROMO QUININE"**

It is LAXATIVE BROMO QUININE, sold by the signature of J. W. C. B. The World over to Cure a Cold in the Head.

**Chinese View of Millinery**

Speaking to a Chinese gentleman the other day, an Englishman asked him if the Chinese ladies will emulate the ways and fashions of Western headgear. In reply he beamed a smile most childlike and bland.

Pleased for something more definite he remarked: "Did you not know that it is a well known fact among the Chinese that the reason many European husbands look harassed and careworn and use further reason why so many of your young men refrain from marriage is this very question of millinery. Ladies' hats cost so much that they spoil their ruin, and so we Chinese have told our women folk that we absolutely forbid them to follow Western fashions in this regard, whatever they may do in other directions."—Pekin News.

**Coy—How few people attended the funeral of Dr. Fillman!**

Roy—Well, they do say things that most of his patients went before him.

**Miss Simpson—Kin you cut mah hair like de ice, Miss Johnson?**

Miss Johnson—Miss Simpson, my dear Gladys, Dorothy Dorothy Simpson.

Mr. Johnson (dismayed)—Well, I could do that, Miss Simpson, but I could spoil de pond for skatin'—Puck.

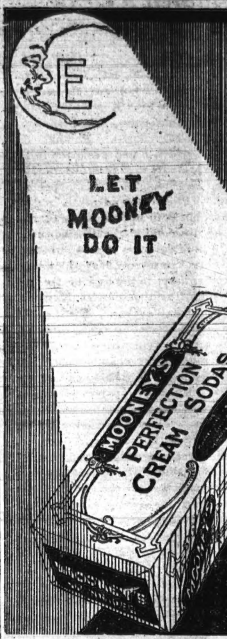

**Navvy—Yus, doctor, I still got that awful headache.**

Doctor—Does it hurt you much?

Navvy—Yus, it gives a awful twinge every time I twist.

Doctor—But you mustn't twist.

Navvy—I don't—Punch.

**Laughed Out of His Name.**

It is hard to be laughed out of one's surname. That is what occurred to an inoffensive gentleman, Charles Salisbury Pickwick, Esq., who after the publication of Dickens' famous novel felt constrained to advertise in the Times informing the world that owing to its having been brought into ridicule and made a byword by the name he intended to abandon his name forever. This was the more hard in his case because he proudly traced the name to a knightly origin—from "Piquez-vite"—"spit fast"—London Chronicle.

**Jamie, having come into the possession of considerable wealth through the death of relatives, was thus addressed by one of his relatives:**

"Ay, Jamie, it was a good thing for you that your father was born afore ye."

"Weel," said Jamie, "I'm nae sure about that—but it was a guid thing that they'de a' been a'."

**Sheep as Burden Bearers**

In the northern part of India sheep are put to a use unknown in European countries. The mountain paths among the foothills of the Himalayas are so precipitous that the sheep, more sure-footed than larger beasts, are preferred as burden carriers.

The load for each sheep is from 15 to 20 pounds. The sheep are driven from village to village with the wool still growing, and in each town the farmer shears as much wool as he can sell there and loads the sheep with the grain he receives in exchange. After his flock has been sheared he turns it homeward, each sheep having on its back a small bag of grain, and the purchased grain—Westminster Gazette.

**Wireless communication is to be maintained with Dr. Mawson's expedition to the South Pole by means of immediate stations between the exploring party and Hobart.**

**Locating the Heat**

Smith—How is your new furnace working these cold days?

Jones—It doesn't get as much hot air as the maps we sold it to me—Cleveland Plain-Dealer.

**Rulers' Peculiar Homes**

The crane for peculiar homes has never been apparent in the character of a King or Queen of England, but in many of our reigning monarchs have fallen to the fancy.

For instance, a native Prince of Java has cooled his palace by making a stream fall in a cascade over the gateway.

The czar Paul constructed a room formed entirely of enormous mirrors, which he spent hours walking up and fro in full uniform—a peculiar taste, seeing that he was one of the ugliest of rulers.

A Russian Empress built a palace of ice and when a courier offered her he was condemned to die. At night in the chilly silence of the chamber of State, where he was almost frozen to death.

**Doing the Courageous.**

Courage is a most excellent quality of soul, but like some other excellent things, it is not always accurately estimated. It is that of it generally as an aggressive virtue, but as often as not it is the very opposite of that. To do that one is supposed to do is not like doing the task we do not like when we might escape it for some thing more pleasant.

Representation and misunderstanding rather than aggravate the situation by trying to explain any one of these things may require of us the finest type of courage of which we are capable. Courage must be aggressive on occasion, but the most beautiful exhibition of it the world has ever seen have been made by men who refused to be aggressive, because there was a higher, if a harder, way—Christian Guardian.

**Not only this but these as well**

**D**ON'T think that concrete can be used only for building bridges, silos, walls and walks; because if you do, you will probably overlook all the places where you can use it now.

T. L. Irving, of North Georgetown, Quebec, used concrete for 81 different purposes on his farm in 1911.

There are probably at least a dozen profitable uses for concrete on your farm at the present moment.

Perhaps you haven't thought of Concrete, except for a new barn, or a silo, or some other big improvement for which you aren't quite ready yet. That's why you should read

**"What The Farmer Can Do With Concrete"**

It will open your eyes to the hundreds of uses that other farmers have found for this material. In plain language, and with the aid of many photographs it explains just what these uses are, and how they can be applied to your farm.

Concrete can not only be used for all the purposes to which wood has been applied, but also many others for which wood would never be suitable.

It is not only a building material; it's a "handy" material, something that you'll grow to depend upon more and more, as you learn its possibilities.

So write for this book. You'll find it isn't a catalogue, nor an argument for you to buy our cement. Every one of its 160 pages is devoted to telling you what concrete can do, and how to use it.

**IT'S FREE FOR THE ASKING.**

Your name on a postcard, or less letter, will bring the book to you by return mail. Or use the coupon. Address

**CANADA CEMENT CO., Ltd.**  
88-89 National Bank Building  
MONTREAL

**Sneezing as an Omen**

The sneeze at the present day is to endeavor to get rid of the chill which causes it; but a sneeze in the days of old Greece was a matter of great concern and import.

There was then a god of sneezing, and great undertakings would even be abandoned if a man sneezed at an inopportune moment, the act being inappropriate as the oracle of the god.

A sneeze between midnight and noon was looked upon as a fortunate sign, but between noon and midnight it betokened great misfortune.

To sneeze to your right was lucky; to the left, unlucky. Two or three sneezes were lucky, one or three, very unlucky, and any undertaking in hand should, if possible, be abandoned; more than four sneezes did not count.

There is a saying in many parts of England today, "Once a wish, twice a sneeze, three times a letter, four times something better." If people sneezed together it was a good sign, particularly if they happened to be discussing business.—Answers.

**The Toronto World speaking of the enumeration of English authors, laments that there is no such thing as a good Toronto voice. That may be so, but the Toronto Titter is world-famed.**—Montreal Herald.

**The annual profit from the Post Office revenues in the United Kingdom, is \$4,000,000, while its estimated expenses are \$21,000,000.**

**Miss Ana Toek—**I'd like to go shopping with you this afternoon, but the dealer is to fix my teeth.

**LESS TIME IN THE KITCHEN  
MORE TIME IN THE FRONT ROOM**

That's your reward if you let **MOONEY'S BISCUITS** take the place of the bread and biscuits you bake yourself.

You'll find **MOONEY'S** a delightful substitute for your own best efforts—the family will like them! Because

**MOONEY'S PERFECTION  
SODA BISCUITS**

come to you straight from the oven in the big Winnipeg factory.

They have that freshness and crispness only to be found in a newly made biscuit. No other biscuit can come to your table as fresh from the oven as **MOONEY'S**.

Get the big package or the sealed tin—both of them damp proof, dust proof, dirt proof—and

**"LET MOONEY DO IT"**

**Not only this but these as well**

**D**ON'T think that concrete can be used only for building bridges, silos, walls and walks; because if you do, you will probably overlook all the places where you can use it now.

T. L. Irving, of North Georgetown, Quebec, used concrete for 81 different purposes on his farm in 1911.

There are probably at least a dozen profitable uses for concrete on your farm at the present moment.

Perhaps you haven't thought of Concrete, except for a new barn, or a silo, or some other big improvement for which you aren't quite ready yet. That's why you should read

**"What The Farmer Can Do With Concrete"**

It will open your eyes to the hundreds of uses that other farmers have found for this material. In plain language, and with the aid of many photographs it explains just what these uses are, and how they can be applied to your farm.

Concrete can not only be used for all the purposes to which wood has been applied, but also many others for which wood would never be suitable.

It is not only a building material; it's a "handy" material, something that you'll grow to depend upon more and more, as you learn its possibilities.

So write for this book. You'll find it isn't a catalogue, nor an argument for you to buy our cement. Every one of its 160 pages is devoted to telling you what concrete can do, and how to use it.

**IT'S FREE FOR THE ASKING.**

Your name on a postcard, or less letter, will bring the book to you by return mail. Or use the coupon. Address

## Happenings in and Around Bellevue

A few of the dancers from Bellevue went up to Blairmore on Monday.

Mrs. Allan, of Coleman, was visiting Mr. and Mrs. Atkinson on Sunday last.

The basket social held on Wednesday night of this week proved a grand success.

The dog belonging to Sergt. Bowers was killed by the local on Saturday night last.

A son has been born to Mr. and Mrs. Watts Goodwin. Mother and child are doing well.

Peter Ratcliff visited Fernie for a few days last week end and stayed with his parents there.

The Rev. W. H. Irwin visited Livingstone last week end and preached in the Methodist church there.

In cases of rheumatism relief from pain makes sleep and rest possible. This may be obtained by applying Chamberlain's Liniment. For sale at all dealers.

Mrs. Erekine, of Fernie, is in town for a few days and is staying with Mr. and Mrs. Andrew Goodwin.

A large crowd of Bellevue sports went up to Blairmore on Saturday last to see the fight between Morris and Marshall.

Mrs. D. Davidson and family and Mrs. Gill Cousins, of Fernie, came to take their abode in Bellevue with their husbands last week.

Louise Shoulder is nearly always due to rheumatism of the muscles, and quickly yields to the free application of Chamberlain's Liniment. For sale by all dealers.

Next Sunday night the memorial service for the late William Buchan will be held in the Methodist church to be conducted by Rev. W. H. Irwin.

An accident occurred in the No. 1 mine to J. R. McLeod, whilst he was getting down some top coals with his pick. It came down unexpectedly and drove the pick into his foot. He was taken out of the mine and attended to by Dr. MacKenzie.

The preacher at the Methodist church on Sunday night last was Mr. Hyslop, of Coleman, who took for his text Matt. chap. 8, verse 1. Mr. Hyslop divided his sermon into two headings, "Discipleship" and "The place of the Cross in our hearts."

The inquest into the death of William Buchan was held last week. The verdict stated that deceased came to his death accidentally by a fall from roof of No. 2 seam of No. 1 mine, where he was working on April 13th. It was also recommended by the jury as follows: "That we, the jury recommend that there be an amendment to the Coal Mines Act of Alberta that no person holding a fire boss certificate be allowed to fire shots doing contract work in a gaseous mine. Furthermore that we, the jury, find that the present system of contract work lends itself to carelessness on the part of the contractors. Though not blaming anyone for the deceased's death, we feel that greater precautions could be taken to safeguard the men from accident." The jury consisted of J. Cunningham (foreman), Wm. Evans, J. J. Walters, J. S. Murray, Thomas Duncan, Harry White and W. H. Cole.

"Our baby cries for Chamberlain's Cough Remedy," writes Mrs. T. B. Kendrick, Rasca, Ga. "It is the best cough remedy on the market for coughs, colds and croup." For sale by all dealers.

## A Bigger, Better Bellevue

Things are booming at Bellevue these days, and several more business places are in course of erection.

The West Canadian Collieries are sub-dividing about 240 acres and are placing same on the market. Already no less than six live business men, residing in different parts of The Pass, have bargained for suitable sites on which to erect large buildings, in which they intend to conduct several branches of the mercantile trade. More space will be devoted to this matter in a near issue of this journal.

## A Race Track Needed

### --Death is Cheated

On Saturday last Blairmore was the scene of not less than three runaways, and levers of the turf have come to the conclusion that Blairmore should have a track where such events as those mentioned may be put on in safety and witnessed by a large number of persons interested in horse racing. The first attraction of this kind was witnessed at 5:30 p.m. when a horse attached to rig made an attempt to get away from its driver when passing along Victoria street. But although the driver was thrown out of the vehicle he dauntlessly held on to the reins and got control of the animal after the latter had dragged the man nearly a block over uneven surface. The doctor attended the wounds and the victim may now be seen on one of our back streets.

The second event of this character took place about 7:30 p.m. when a team of stalwart horses belonging to the West Canadian Collieries and driven by "Scotty," attempted to race along Fifth avenue towards the mine. The driver was thrown out and received slight bruises but the animal was stopped before it had time to go very far. This affair was the first free attraction witnessed by several passengers who had just then gotten off the west-bound "local."

The third and last attraction of this nature occurred at 8:15 p.m. when a team of young horses which had been in town for only a few days and which evidently had not accustomed themselves to our easy going streets, broke away into a fast gallop shortly after leaving Thompson & Co.'s store with a load of choice groceries to take to the people for Sunday consumption. The animals rushed madly down Victoria street to Eighth avenue to which place they were no doubt attracted by one of Blairmore's legal lights which penetrated the darkness. The horses then came over near the Enterprise building where the wagon capsize and the contents dumped near the sidewalk. The team followed down Eighth avenue to below State street where they were finally gotten under control. Driver Patterson deserves credit for the noble British spirit he displayed in staying in the wagon until the two or three passengers were gotten out in safety. If the boys had not left the wagon when they did, it is more than likely that the cortege would have borne some mother's son to his last resting place the early part of this week.

## Happenings in and Around Frank

BORN--To Mr. and Mrs. Frank Weir, of Frank, on Monday, April 22nd, a daughter.

A. J. Holtmoltz, station agent here, left on Tuesday for Cayley where he will take up a similar position to the one he held at Frank.

The Canadian Coal Consolidated, Limited, have decided to have a number of their houses removed to the new townsite, and are calling for tenders for the work.

Many improvements are being made to the grounds surrounding the Rocky Mountain Sanatorium. The grounds are being nicely graded off and trees and shrubs planted.

A. V. Lang's store is being besieged with patrons these days, all of whom are taking advantage of the monster clearing out sale, which apparently will leave his large stock of dry goods and groceries "doomed." Mr. Smith, an experienced and genial salesman, has been engaged for several weeks by Mr. Lang, and his efforts are being fully rewarded.

A. Manuel, proprietor of the Frank hotel, will erect a large hotel at Burnie, and plans are being arranged by E. Disney, of Coleman. A splendid site has been secured and the work of construction will shortly commence. The new building will compare favorably with any of the hotels in the neighboring towns, will be fitted with all modern appliances and cost upwards of \$20,000.

The Rocky Mountain sanatorium will give a ball on Friday evening of this week. This will be given on the occasion of the opening season 1912 of that institution. A full orchestra will be in attendance and everything possible is being done to make the affair a splendid success. Dancing will commence at 9 o'clock in the spacious dining room which will be suitably decorated for the occasion. Supper will be served at midnight in the large hall in the basement.

Constipation brings many ailments in its train and is the primary cause of much sickness. Keep bowels regular, and you will escape many of the ailments to which women are subject. Constipation is a very simple thing, but like many simple things, it may lead to serious consequences. Nature often needs a little assistance and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. Sold by all dealers.

## Doyen Perfects

### Cancer Cure

Paris, April 24.--In a paper read before the Physiotherapeutic Congress here, Dr. Doyen declared that he was now able to confirm his theory that it was possible to cure cancer without a surgical operation by means of an electric treatment, which he described as "thermic electro coagulation." In all the cases treated, said Dr. Doyen, the cancer was easily accessible. They included cancer affections of the skin, lip, tongue, tonsils, and other organs.

Dr. Doyen has been experimenting in this direction since 1901. In his treatment, which in the case of external cancerous affections, necessitates special electrical apparatus, he depends upon the curative value of the penetrating heat produced by an electric current of high frequency and low tension.

The last execution which took place in Macleod occurred on January 5th, 1908, when Mah Hong, the Blairmore Chinese, was hanged at the Barracks for the murder of his brother.

## "Miss Nobody From Starland"

With not one dull moment and full of wit and humor, sparkling musical numbers, with gorgeous costumes and wonderful scenic effects, "Miss Nobody From Starland" should prove a more than agreeable offering at the Blairmore Opera House on April 30. This musical comedy is one of the best and most popular of the many notable productions placed before the public by Mori A. Singer. The book and lyrics are by Adams, Hough and Mitchell, all of whom have had a part in previous Singer successes, and the music is the work of prolific Joseph E. Howard, whose agreeable songs are heard all over the world. Olive Vail, the clever delineator of the title role, and a widely known favorite will head a large cast of well known principals.
